

GDD 03

My Family Garden

Every family is made of love

The families game for ages 3-6, retrofitted to the mechanic-embodying standard. Children grow a family garden of their own people, erase the "only one shape counts" myths, sort the many real shapes of family, and stand up for a friend's. Seven mechanics, zero "tap the right card". Scorecard: passed.

Every family is made of love.

My Family Garden is the families game: children grow a garden of the people who love and care for them, and learn that families come in many shapes, joint, single-parent, grandparent-led, adoptive, blended, two-homes, and every one is real and good. This is the v2 retrofit: the v1 library leaned 41% on one tap; the same warm, India-grounded content now arrives through seven play actions, led by the signature build-your-garden.

FIELD	VALUE
Node / gameld	g03 · family-garden (confirm exact id against engine-host)
Chapter / ages	Chapter 1 · ages 3-6 · light canvas · parent co-played
Thread / topics	D · Relationships · UNESCO 1.1, 1.2, 7.1
Prerequisite / builds on	g37 (Clean Crew)
Gating	Core
Schema / status	v2 · scorecard PASS retrofit from v1 (was 41% single-mechanic).

Every child's family, affirmed.

From the Chapter 1 personas. The game makes sure every child sees their own family as real and good, and learns to honour everyone else's.

PERSONA	WHAT THEY NEED HERE	THE MECHANIC THAT SERVES IT
Kabir, 5 (parent works away)	To know a family apart is still family.	build + reflect: plant the wider circle of care.
A grandparent-raised child	To feel proud, not "weird".	branch: stand proud when teased.
Sunita (joint family)	"Everyone helps the family" fairness.	sort + build: helping by turns, any gender.
Vihaan, 4	Variety, not a repeated tap.	build + match: grow a garden, every screen new.
Megha (parent)	Something that sparks a real talk.	Co-play reflects about "our family".

Why this works (the evidence). Children meet many family forms early, joint, single-parent, grandparent-led, adoptive, blended, and seeing their own family affirmed builds belonging. In India especially, multigenerational and grandparent-raised homes are common, so the game centres them as ordinary and good, never "different".

Seven moves, one garden.

The rework's heart: the truth "every family is made of love" arrives through seven actions, led by growing your own garden. Mechanics rotate; the same one never runs twice in a row.

MECHANIC	THE CHILD DOES	EMBODIES	N
reflect	Notices their own family and people (no wrong answer).	Belonging; pride.	19
strike-rewrite	Erases a "only one shape counts" myth, writes the truth.	Conceptual change.	17
match	Pairs a family member to the love they give.	Care in action.	10
sort	Sorts real families vs "not a family" (trick: all real).	All shapes are real.	10
build (garden)	Grows a family garden of their own people.	"My people"; belonging.	9
branch	Chooses when a family is teased or a kid's left out.	Allyship; pride.	9
role-play (voice)	Says it proud ("my family is made of love").	Pride; gratitude.	8

17 of 82 moments are branch or role-play; binary "tap the right answer": **0%**. No single mechanic exceeds **23%**.

The two-test, passed.

Is it fun?

Growing a garden is gentle, joyful play: plant a flower for each person who loves you, watch your garden bloom, decorate it, add a banner. Around it: erase a silly "that's not a real family" rule, sort the many shapes, say "my family is made of love". Every screen a new little action, the antidote to "tap the right card".

Is it teaching?

Yes, family literacy and belonging: a family is anyone who loves and cares for you; families come in many real shapes; they're made of love and care, not blood or sameness; everyone helps and everyone belongs, and every family deserves respect.

The belief it moves. From "a real family is only mum-dad-kids; adopted/step/single-parent/grandparent families aren't 'real'; different families are weird" → "a family is the people who love and care for you, in any shape, and every one is real and good."

Same warmth, new actions.

82 scenarios across six categories, India-grounded (joint families, grandparent-raised kids, parents working away, adoption). Every one re-encoded to a typed v2 mechanic.

CATEGORY	N	LEAD MECHANICS	COVERS
What a family is	12	build, reflect, match	People who love & care for you; any size; wider circle of care.
All the shapes of family	16	sort, strike-rewrite, match	Joint, single-parent, grandparent-led, adoptive, blended, two-homes.
Families are made of love	12	strike-rewrite, sort, match	Love & care, not blood/sameness; step & adoptive love is real.
Every family is real & good	14	branch, strike-rewrite, role-play	Don't tease; be proud; TV shows a narrow slice.
Helping & belonging	14	sort, branch, build	Everyone helps, by turns; ask for help; everyone belongs.
My family & my people	14	build, reflect, sort	Grow your own garden; chosen family; circle of care.

A branch scenario (pride in action), verbatim.

hook: "A classmate says 'you live with your grandparents? That's weird.'"
 option A "Say 'my grandparents are my family and I love them'" -> you stand proud [best]
 option B "Feel ashamed of your family" -> you feel bad about a loving family
 debrief: "Every family shape is real and good; yours is too."

What this game erases.

MYTH (UN ERASES)	TRUTH (RE WRITES)	BASIS
A real family is only a mum, a dad and kids.	A family is anyone who loves and cares for you.	Family diversity.
A one-parent family isn't a proper family.	A single parent and child are a whole, loving family.	Family diversity.
Grandparents can't be the ones raising you.	Many kids are lovingly raised by grandparents.	India family forms.
Adopted children aren't really family.	An adopted child is fully, truly family.	Adoption.
Families have to share the same blood.	Families are made of love and care, not only blood.	Family bonds.
A step-parent can't really love you.	Step-parents can love and care for you fully.	Blended families.
Only some people should help at home.	Everyone in the family helps each other.	Gender-equal caregiving.
A different family is something to be embarrassed about.	Your family is something to be proud of.	Self-esteem.
Only families like the ones on TV are normal.	Real families are far more varied than TV shows.	Media literacy.

The micro-loop.

1. **Hook.** Lensy: "let's grow your family garden, who do we plant first?".
2. **Play.** One of seven mechanics, led by build-your-garden, rotated.
3. **Bloom.** Each planted person makes the garden flower; warm and personal.
4. **UN → RE moment.** On a myth, UN erases it and RE writes the truth ("only mum-dad-kids" → "anyone who loves you").
5. **Apply.** Sort the real families, say it proud, or stand up for a friend's family.
6. **Sticker.** The family-garden badge; GameDone records once.

Signature surfaces: the **grow-your-garden** builder (plant your own people) and a **family-shapes** flowerbed. Co-play prompts invite the grown-up to share "our family", the conversation Megha wants.

Warm, proud, inclusive.

- **Register.** Ages 3-6: gentle, warm, never preachy; the feeling is "my family is good, and so is yours".
- **Affirm every shape.** Joint, single-parent, grandparent-led, adoptive, blended, two-homes, all shown as ordinary and good.
- **India-centred.** Grandparent-raised and joint families are normal, not "different"; parents working away are still family.
- **Pride, not shame.** Teasing about families is gently countered; the child leaves proud of their own.
- **Everyone helps.** Chores by turns and by anyone (links Can-Do Kids), framed so it lands across joint families.
- **Access.** Audio-first, offline, low-data, colour never the only signal; co-play; Indian homes, names and contexts.

v2 schema, scorecard-gated.

- **gameld. family-garden** — node.game === GameDone key === registry id (confirm exact id in engine-host).
- **v2 mechanic-embodiment schema.** Each scenario carries type + typed payload (build.pieces, strike-rewrite.myth, match.pairs, sort.items/bins/key, branch.options, role-play.yourLine, reflect.options). Reuses the shared templates from g09.
- **Scorecard-gated.** Passed all eight checks (7 mechanics, max 23%, 0% binary, 17 autonomy, 17 UN→RE, 6 personas, 100% completeness). Re-run score_gdd.py on any edit.
- **Asset need.** The build verb needs a family-garden kit (flowers for diverse family members) plus diverse, India-representative home art.
- **Generated path.** Label/order/thread changes flow through the xlsx + gen-path, never hand-edited path.ts.

Ethics contracts (never traded for engagement): no hard fail; affirm every family shape; pride not shame; everyone helps (gender-equal); represent India's family forms; co-play friendly; made-for-India.

Why this works.

- **Belonging needs affirmation.** Children meet many family forms early; seeing their own family reflected and affirmed supports belonging and self-esteem, while teasing about family harms it.
- **Play beats lecture.** 3-6s learn through build, sort, match, voice and story; growing a personal garden makes "every family is made of love" concrete and felt.
- **India's family reality.** Multigenerational and grandparent-raised households are common, and adoption and single-parent families exist and deserve affirmation, so the game centres these as ordinary and good.

Citations accompany each scenario in the library JSON. Retrofit 5 of 9 (g01-08, g37) to the v2 standard. g03 done; remaining: g37, g01, g02, g08.
