

Capstone c1 My First Friends

The Friendship Garden blooms

The Chapter 1 graduation, the reference build for the capstone format. A sticker-book landing that revisits the six big truths of ages 3-6, plays a few joyful victory laps, and crowns it with a blooming garden and a graduation sticker. Six truths, eight victory laps, zero tests. Scorecard: passed.

The Chapter 1 graduation.

My First Friends is the capstone that closes Chapter 1 (ages 3-6). It is not a lesson and not a test, it is a celebration that consolidates everything the child learned across the chapter's six games, then blooms the Friendship Garden and hands over a graduation sticker. It is also the reference implementation for the capstone format (see the Capstone Format & Scorecard spec).

FIELD	VALUE
Node / gameld	c1 · capstone-ch1 (confirm exact id against engine-host)
Chapter / ages	Chapter 1 · ages 3-6 · light canvas · parent co-play
Type / thread	Capstone · ★ Capstone (gold #EAB308)
Consolidates	g01, g02, g03, g04, g05, g37 (all of Chapter 1)
Gating	— (never gated; reached by finishing the chapter spine)
Status	capstone ✓ · scorecard PASS

6 big truths	8 victory laps	4 reflections	6 mechanics	0 tests
------------------------	--------------------------	-------------------------	-----------------------	-------------------

Why it works. Revisiting the chapter's truths after a gap is spaced retrieval practice, which consolidates learning into durable memory, and replaying each truth through a fresh mechanic adds the variable-cue boost. Doing it as a score-free, mastery-oriented celebration keeps motivation high and anxiety at zero. It sticks because it never feels like an exam.

Six truths, looked back on.

The heart of the capstone: a gallery of the six stickers earned across Chapter 1. Tapping each replays its one big truth, gentle, spaced retrieval, no grading.

STICKER	FROM	THREAD	THE BIG TRUTH IT REPLAYS
feelings-faces	g01 Feelings Friends	C	All your feelings are okay, you can name them, and you can say a big NO.
body-shield	g02 My Body, My Rules	A	Your body is yours; you know safe from unsafe touch, and you can tell a trusted grown-up.
family-heart	g03 My Family Garden	D	Families come in all shapes; love makes a family, and everyone belongs.
rainbow-friends	g04 Same Same, Different	E	We're equal inside; difference is wonderful, and toys, colours and dreams are for everyone.
can-do-star	g05 Can-Do Kids	E	Anyone can be anything, whatever their gender.
bubble-clean	g37 Clean Crew	A	Washing, brushing and healthy habits keep your body well, for everyone.

★ friendship-garden-bloom

Five happy beats.

1. **Arrive & bloom.** Lensy: "you did it!" The Friendship Garden bursts into full flower, every seed from Chapter 1 opening at once.
2. **Look back.** The six-sticker gallery; tap each to hear its truth again (consolidate).
3. **Play back.** Eight light victory laps drawn from the chapter, "remember this? you've got it!", no score, no fail.
4. **Reflect & celebrate.** Four gentle prompts, then the golden Friendship-Garden graduation sticker and a certificate.
5. **Preview & share.** A peek at Chapter 2 (Fair & Safe Explorer) and an invitation to show a grown-up.

Arrival & canvas, verbatim.

arrival: "Lensy: you did it! Look, every seed you planted in Chapter 1
is about to bloom. Let's take a happy walk back through everything."
canvas: "The Friendship Garden bursts into full bloom. Every flower you grew
opens at once... and Lensy hangs your stickers in the sky like little suns."

Eight victory laps.

Each replays a chapter truth through a different action (variable-cue retrieval), framed as celebration. Six distinct mechanics, never the same twice in a row, never scored.

#	FROM	MECHANIC	THE VICTORY LAP
1	all	gallery	The sticker book, tap any sticker to hear its truth.
2	g01	match	Match each face to its feeling, "you know these by heart now".
3	g02	sort	Pop "my body, my rules" choices where they belong.
4	g03	build	Grow your family garden again, every kind belongs.
5	g04	spot	Spot the wonderful difference, every answer is a happy one.
6	g05	swipe	Cheer it on, swipe up for every can-do kid.
7	g37	build	Run the Clean Crew routine in order, one happy time.
8	g03	match	Match the love to where it lives, so many kinds of love.

Mechanics used: **gallery, match, sort, build, spot, swipe**. Tests, scores or buzzers: **zero**.

No wrong answers here.

The four reflections (non-judged)

- "Which feeling-friend do you say hello to most these days?"
- "Who lives in your family garden?"
- "What's one way you keep your body yours and well?"
- "Which happy idea will you carry into your next adventure?"

Every option is affirmed warmly; the point is ownership and reflection, not a right answer.

The graduation

Glyph. The golden **friendship-garden-bloom** sticker tops the book.

Certificate. "This certifies that you are now a My First Friends graduate. You can name your feelings, you know your body is yours, you know every family and every friend belongs, and you know anyone can be anything. The Friendship Garden is yours."

Sticker book. All six chapter stickers glow, with the new golden bloom on top.

Preview & share. Next: Chapter 2, becoming a Fair & Safe Explorer. And: "Show a grown-up your blooming Friendship Garden and tell them one thing you learned." A warm, no-surveillance parent bridge.

How it ships.

- **Schema.** Capstone v1 (type "capstone"): arrival, canvasPayoff, threadsRecapped, recap[], playback[], reflect[], celebration, preview, share. Data file: **SwipeEd — Capstone c1 My First Friends — Landing.json**.
- **Gate.** Passed score_capstone.py on all eleven checks, including the literal "no test/score language" guard (which caught and fixed one slip here).
- **gamelid. capstone-ch1** — node.game === GameDone key === registry id.
- **Gating.** "—" : never gated or disabled; reached by completing the Chapter 1 Core spine.
- **Reuse.** Every truth and victory lap is pulled from the chapter's existing game libraries; the capstone adds no new content.
- **Tracked.** sync_master_tracker.py marks c1 capstone ✓ in the Master Node Table.
- **Reward.** Sticker economy only, the chapter glyph and sticker book; no coins, streaks or leaderboards.

The capstone promise. Consolidate the chapter's truths through spaced, varied, joyful retrieval; crown it with a celebration; never make a child feel judged. c1 is the template the other seven follow.

Research basis: spaced retrieval practice & the spacing effect; variable-cue retrieval; mastery-goal motivation and low-stakes review vs test anxiety. Next capstones: c2 (Fair & Safe Explorer), c3 (Growing Up Smart).
