

Capstone c2 Fair & Safe Explorer

The Explorer's map fills in

The Chapter 2 graduation (ages 6-9). A sticker-book landing that lights up the whole explorer's map, revisiting the eight big truths of the chapter, body, friends, feelings, fairness, safety and screens, in joyful victory laps. Eight truths, eight victory laps, zero tests. Scorecard: passed.

The Chapter 2 graduation.

Fair & Safe Explorer closes Chapter 2 (ages 6-9). Like every capstone it consolidates and celebrates, never tests, here lighting up an explorer's map as it revisits the eight big truths the child gathered across the chapter, then crowns it with a golden compass. It follows the capstone format proven by c1, at a slightly more grown-up, adventurous register for 6-9.

FIELD	VALUE
Node / gameld	c2 · capstone-ch2 (confirm exact id against engine-host)
Chapter / ages	Chapter 2 · ages 6-9 · light canvas · solo or co-play
Type / thread	Capstone · ★ Capstone (gold #EAB308)
Consolidates	g06, g07, g08, g09, g41, g10, g11, g12 (all of Chapter 2)
Gating	— (never gated; reached by finishing the chapter spine)
Status	capstone ✓ · scorecard PASS

8 big truths	8 victory laps	4 reflections	6 mechanics	0 tests
------------------------	--------------------------	-------------------------	-----------------------	-------------------

Why it works. Revisiting the chapter's truths after a gap is spaced retrieval practice, and for ages 6-9 the evidence is clear that it should be playful, it is the active attempt to recall, not a quiz, that builds durable memory. So every beat is a joyful victory lap, never a test, with each truth re-cued through a fresh mechanic for the variable-cue boost.

Eight truths on the map.

The heart of the capstone: eight flags planted across the explorer's map. Tapping each replays its one big truth, spaced, gentle, never graded.

FLAG	FROM	THREAD	THE BIG TRUTH IT REPLAYS
body-lab	g06 Body Lab Juniors	A	You know how your body works, we're alike inside, and every body is good.
unique-me	g07 What Makes Me, Me	E	Every single kid is a different, wonderful 'me'.
safety-badge	g08 Safety Squad	B	A safety hero spots it, acts on it, and tells a trusted grown-up.
true-friend	g09 Friend or Frenemy?	D	You can spot real friends, be one, and hold out for steady, kind people.
heart-tool	g41 Heart Smart	C	You always have a tool for a big feeling; you're never stuck.
fair-play-cup	g10 Fair Play World	E	Fairness is a daily habit you can keep building.
ally-shield	g11 Not Fair, Not Funny	E	When everyone's an ally, everyone is safer and kinder.
screen-smart	g12 Smart Screen Heroes	G	You can be screen-smart, and help others be screen-smart too.

Five happy beats.

1. **Arrive & light up.** Lensy: "explorer, you made it across the whole map!" Every place visited in Chapter 2 lights up at once.
2. **Look back.** The eight-flag map gallery; tap each to hear its truth again (consolidate).
3. **Play back.** Eight light victory laps drawn from the chapter, framed as adventures revisited, no score, no fail.
4. **Reflect & celebrate.** Four gentle prompts, then the golden explorer-compass graduation sticker and a certificate.
5. **Preview & share.** A peek at Chapter 3 (Growing Up Smart) and an invitation to show a grown-up the filled-in map.

Arrival & canvas, verbatim.

```
arrival: "Lensy: explorer, you made it across the whole map of Chapter 2!  
        Let's wander back over everywhere you went and light up each place."  
canvas:  "The Explorer's map fills in. Every place you visited lights up at once...  
        and little flags with your stickers pop up across the whole map."
```

Eight victory laps.

Each replays a chapter truth through a different action (variable-cue retrieval), framed as an adventure revisited. Six distinct mechanics, never the same twice in a row, never scored.

#	FROM	MECHANIC	THE VICTORY LAP
1	all	gallery	The flag book, tap any flag to hear what you discovered.
2	g06	match	Match each body part to its job, "you're the expert now".
3	g08	sort	Sort the safety-hero moves at the lookout.
4	g11	spot	Spot the kind ally move on the fair-play field.
5	g09	build	Build your "real friend" recipe on the friendship trail.
6	g10	swipe	Cheer for fairness, swipe up every time it's fair.
7	g41	match	Match the big feeling to a tool that helps.
8	g12	sort	Sort screen-smart from not, at the signal tower.

Mechanics used: **gallery, match, sort, spot, build, swipe**. Tests, scores or buzzers: **zero**.

No wrong answers here.

The four reflections (non-judged)

- "Which explorer-skill are you proudest of?"
- "Who is a real, steady-kind friend in your life?"
- "What do you do now when a big feeling shows up?"
- "Which idea will you take exploring into the next chapter?"

Every option is affirmed warmly; the point is ownership and reflection, not a right answer.

The graduation

Glyph. The golden **explorer-compass** tops the map.

Certificate. "This certifies that you are now a Fair & Safe Explorer. You understand your amazing body, you spot real friends, you have tools for big feelings, you play fair and stand up as an ally, and you're a safety and screen-smart hero. The whole map is yours to explore."

Sticker book. All eight Chapter 2 flags planted, with the golden compass on top.

Preview & share. Next: Chapter 3, Growing Up Smart, exploring more on their own, with changing bodies and trickier choices, Lensy alongside as trusted guide. And: "Show a grown-up your filled-in map and teach them one safety-hero move or feelings tool."

How it ships.

- **Schema.** Capstone v1 (type "capstone"): arrival, canvasPayoff, threadsRecapped, recap[], playback[], reflect[], celebration, preview, share. Data file: **SwipeEd — Capstone c2 Fair & Safe Explorer — Landing.json**.
- **Gate.** Passed score_capstone.py on all eleven checks, including the literal "no test/score language" guard.
- **gameld. capstone-ch2** — node.game === GameDone key === registry id.
- **Gating.** "—" : never gated or disabled; reached by completing the Chapter 2 Core spine.
- **Reuse.** Every truth and victory lap is pulled from the chapter's existing game libraries; the capstone adds no new content.
- **Tracked.** sync_master_tracker.py marks c2 capstone ✓ in the Master Node Table.
- **Reward.** Sticker economy only, the chapter glyph and sticker book; no coins, streaks or leaderboards.

The capstone promise. Consolidate the chapter's truths through spaced, varied, joyful retrieval; crown it with a celebration; never make a child feel judged. c2 follows the c1 template; c3-c8 are next.

Research basis: spaced retrieval practice (durable, and best made playful for ages 6-9); variable-cue retrieval; mastery-goal motivation and low-stakes review vs test anxiety. Next capstone: c3 (Growing Up Smart).
