

Capstone c3 Growing Up Smart

Look how far you've come

The Chapter 3 graduation (ages 9-12), the biggest chapter's landing. A near-peer sticker-book finale that lights up a private Growing-Up skyline, revisiting nine big truths, body, mind, choices, consent, gender and health, as a constellation. Nine truths, ten victory laps, zero tests. Scorecard: passed.

The Chapter 3 graduation.

Growing Up Smart closes Chapter 3 (ages 9-12), the biggest, most pivotal chapter. Like every capstone it consolidates and celebrates, never tests, here lighting up a private "growing-up" skyline as it revisits the nine big truths the child grew into, body and mind, consent and choices, gender and health. The register is near-peer and reflective: the theme is "look how far you've come."

FIELD	VALUE
Node / gameld	c3 · capstone-ch3 (confirm exact id against engine-host)

Why it works. Revisiting the chapter after a gap is spaced retrieval, which consolidates durably; replaying each truth through a fresh mechanic adds the variable-cue boost. For tweens the evidence stresses celebrating the journey and growth, "how far you've come", over any grade, which builds the resilience the teen years will need. So this capstone is reflective and proud, never a test.

Nine truths, grown into.

The heart of the capstone: nine stickers rising into a "Growing Up Smart" constellation. Tapping each replays its one big truth, spaced, near-peer, never graded.

STAR	FROM	THREAD	THE BIG TRUTH IT REPLAYS
growing-body	g13 Puberty Quest	A	A changing body is normal; be patient and kind to yourself.
mind-care	g38 Mind Matters	C	Your mind matters, feelings pass, you have tools, and asking for help is strong.
journey-map	g14 The Amazing Journey	F	You understand how life begins, and hold it with calm confidence and respect.
boundary-bot	g15 Boundary Bot	B	Your boundaries and others' matter; ask before sharing, tell if pressured.
crossroads-compass	g16 Crossroads	D	Stop, weigh options, choose by your values; keep friends who respect your choices.
flip-star	g17 Flip the Script	E	Spot the stereotype, flip it, and call it out.
norm-compass	g18 Norm Storm	E	Some norms help and some harm; question a harmful one, kindly.
upstander-badge	g19 Speak Up	E	With the five moves and the helplines, you're ready to help safely.
defender-heart	g20 Defenders of the Body	F	You know the facts about HIV, and can be a safe, kind, informed friend.

Five reflective beats.

1. **Arrive & light up.** Lensy: "look how far you've come." The private Growing-Up skyline switches on, skill by skill.
2. **Look back.** The nine-star constellation; tap each to revisit its truth (consolidate).
3. **Play back.** Ten light victory laps drawn from the chapter, framed as confident "you've got this" moments, no score, no fail.
4. **Reflect & celebrate.** Four growth-minded prompts ("what feels different now?"), then the golden Growing-Up star and a certificate.
5. **Preview & share.** A peek at Chapter 4 (Reading Relationships) and a privacy-respecting, optional share.

Arrival & canvas, verbatim.

```
arrival: "Lensy: look how far you've come. When this chapter started, a lot of  
        this was brand new, now it's just part of how you think."  
canvas:  "The Growing-Up map lights up at dusk... your nine stickers rise into  
        the sky like a constellation called Growing Up Smart."
```

Ten victory laps.

Each replays a chapter truth through a different action (variable-cue retrieval), framed as a confident lap. Seven distinct mechanics, including a no-fail Crossroads branch, never the same twice in a row, never scored.

#	FROM	MECHANIC	THE VICTORY LAP
1	all	gallery	The constellation, tap any star to revisit its truth.
2	g13	match	Match each body change to its calm truth.
3	g14	swipe	Swipe up for every fact you hold with calm confidence.
4	g38	sort	Sort the healthy ways to handle a big feeling.
5	g15	sort	Sort the respectful online move.
6	g16	branch	One more Crossroads, choose by your values (no-fail).
7	g17	spot	Spot the stereotype hiding in plain sight.
8	g18	match	Match the norm to helps-or-harms.
9	g19	build	Build the five-move upstander toolkit.
10	g20	sort	Sort what spreads HIV from what truly doesn't.

Mechanics used: **gallery, match, swipe, sort, branch, spot, build**. Tests, scores or buzzers: **zero**.

Look how far you've come.

The four reflections (non-judged, growth-minded)

- "Look how far you've come this chapter. What feels different about you now?"
- "Which growing-up skill are you most glad to have?"
- "When something's hard now, what do you reach for?"
- "What will you carry into the teen years ahead?"

Every option is affirmed; the focus is the journey and growth, not a right answer, the evidence-based way to build a tween's resilience.

The graduation

Glyph. The golden **growing-up-star** crowns the constellation.

Certificate. "...You understand your changing body and mind, you have tools for big feelings, you make thoughtful choices, you flip stereotypes and stand up for others, and you hold the facts about your body with calm confidence. You've grown a lot, and you did it yourself."

Sticker book. All nine Chapter 3 stickers shine, topped by the golden star.

Preview & share (privacy-first). Next: Chapter 4, Reading Relationships (12-15). And, because this age is more private, the share is the child's call: "share one thing you're proud of with a grown-up you trust, or keep it for yourself, that's okay too."

How it ships.

- **Schema.** Capstone v1 (type "capstone"): arrival, canvasPayoff, threadsRecapped, recap[], playback[], reflect[], celebration, preview, share. Data file: **SwipeEd — Capstone c3 Growing Up Smart — Landing.json**.
- **Gate.** Passed score_capstone.py on all eleven checks, including the literal "no test/score language" guard.
- **gameld. capstone-ch3** — node.game === GameDone key === registry id.
- **Gating.** "—" : never gated; reached by completing the Chapter 3 Core spine.
- **Reuse.** Every truth and victory lap is pulled from the chapter's existing game libraries; no new content.
- **Tracked.** sync_master_tracker.py marks c3 capstone ✓. The three kids'-chapter capstones (c1-c3) are now complete.
- **Reward.** Sticker economy only; no coins, streaks or leaderboards.

The capstone promise. Consolidate the chapter's truths through spaced, varied, joyful retrieval; crown it with a celebration of growth; never make a child feel judged. c1-c3 done; c4 (Reading Relationships) is next.

Research basis: spaced retrieval practice & variable-cue retrieval; growth-mindset and celebrating the journey for tweens (9-12) over grades. Next capstone: c4 (Reading Relationships, ages 12-15).
