

Capstone c5 Ready for the World

Look how far you've come

The Chapter 5 graduation (ages 15-18), and one of the two grand finales, the close of the whole 4-18 journey. A reflective sticker-book landing that opens on a sunrise over the entire journey, revisiting nine big truths across six threads, choices and health, consent and identity, leadership and rights, life skills and media, as a constellation called Ready for the World. Nine truths, nine victory laps, zero tests. Scorecard: passed.

The grand graduation.

Ready for the World closes Chapter 5 (ages 15-18) and, with it, the entire kids' journey from age 4. Like every capstone it consolidates and celebrates, never tests, here opening on a sunrise over the whole journey as it revisits the nine big truths the young person grew into this chapter, their choices and health, consent and identity, leadership, change-making, rights, real-life skills and reading the information world. The register is warm, proud and reflective: "look how far you've come", not just this chapter, the whole way. It is one of the two grand graduations (with c8), and it hands the young person into the adult layer.

FIELD	VALUE

Why it works. Revisiting the chapter after a gap is spaced retrieval, which consolidates durably; replaying each truth through a fresh mechanic adds the variable-cue boost. As a grand graduation, it goes further, lighting up every chapter since age 4 to mark a whole journey, and the evidence for near-adults stresses celebrating growth, autonomy and self-trust over any grade, exactly the resilience the coming years will need. So this capstone is proud and reflective, never a test.

Nine truths, grown into.

The heart of the capstone: nine stickers rising into a "Ready for the World" constellation at dawn, spanning six threads. Tapping each replays its one big truth, spaced, near-adult, never graded.

STAR	FROM	THREAD	THE BIG TRUTH IT REPLAYS
choice-compass	g29 My Choices, My Future	F	Your body and future are yours to plan; you decide if and when, and you have the knowledge to do it well.
status-strength	g30 Status: Know It	F	Knowing your status is strength, routine, private and protective; treatment works, and the only thing to fear is stigma.
mutual-hearts	g31 Mutual	B	Real intimacy is mutual, enthusiastic, ongoing, freely-given consent, every time and both ways.
spectrum-prism	g32 Spectrum	D	Love and identity live on a spectrum, and every point on it is natural and deserves respect.
lead-torch	g33 Lead the Way	E	You can lead, quietly or out loud; everyone has a way to lift others and lead with respect.
change-spark	g34 Change Makers	E	You can change what's unfair, ordinary people taking small actions is how norms actually shift.
rights-shield	g35 Justice League	G	Your rights are yours, the law protects you, and there are real, reachable routes to help and justice.
life-toolkit	g42 Life Ready	C	You're ready for real life, money, work, time and stress are learnable, and asking for help is a strength.
decoder-lens	g36 Decoded	G	You can read the machine, decode the feed, the fakes and yourself, and keep learning for life.

Five reflective beats.

1. **Arrive & bloom.** Lensy: "look how far you've come, not just this chapter, the whole way." A sunrise lights up the entire journey, every chapter since age 4.
2. **Look back.** The nine-star constellation; tap each to revisit its truth (consolidate).
3. **Play back.** Nine light victory laps drawn from the chapter, framed as confident "you've got this" moments, no score, no fail.
4. **Reflect & celebrate.** Four growth-minded prompts (the whole-journey reflection included), then the golden star, a grand certificate and the full sticker book.
5. **Preview & share.** A bridge into Chapter 6 (College, the adult journey begins) and a privacy-respecting, optional share.

Arrival & canvas, verbatim.

arrival: "Lensy: look how far you've come. Not just this chapter, the whole way,
from a small kid naming feelings to a near-adult ready for the world."
canvas: "...a sunrise over a whole landscape... every chapter you've ever finished
glows together, ages 4 to 18, a whole world you built."

Nine victory laps.

Each replays a chapter truth through a different action (variable-cue retrieval), framed as a confident lap. Seven distinct mechanics, including no-fail branches, never the same twice in a row, never scored.

#	FROM	MECHANIC	THE VICTORY LAP
1	all	gallery	The nine-star constellation, tap any star to revisit its truth.
2	g31	swipe	Swipe up for real, mutual, freely-given consent.
3	g36	spot	Spot the dark pattern one more time, and see straight through it.
4	g34	branch	Take one small action that shifts what's unfair (no-fail).
5	g32	sort	Sort respect from disrespect across the spectrum.
6	g35	match	Match a need to the real route to help (1930, NALSA 15100, 1098).
7	g42	branch	Make a simple money plan and ask for help (no-fail).
8	g30	strike-rewrite	Clear the last status myth: knowing is routine, and strength.
9	g29	swipe	Swipe up for everything that's truly yours to decide.

Mechanics used: **gallery, swipe, spot, branch, sort, match, strike-rewrite**. Tests, scores or buzzers: **zero**.

Look how far you've come.

The four reflections (non-judged, growth-minded)

- "Look how far you've come, all the way from naming feelings as a small kid to here. What feels different about how you see yourself and the world now?"
- "Of everything this chapter, which idea will you carry into adulthood with you?"
- "The biggest lesson of the whole journey: learning never stops. Does it feel like something you can keep doing for life?"
- "As you step toward the world, what are you most ready for?"

Every option is affirmed; the focus is growth, self-trust and readiness, not a right answer, the evidence-based way to send a near-adult into the world with confidence and autonomy.

The graduation

Glyph. The golden **ready-for-the-world-star** crowns the constellation.

Certificate. "...You are Ready for the World, a graduate of Chapter 5 and of the whole SwipeEd journey, ages 4 to 18. You own your choices and your future, you know that knowing your status is strength, you live consent as mutual and respect every identity, you lead and you change what's unfair, you know your rights and how to claim them, you carry real-life skills and the courage to ask for help, and you can read the whole information world. You've grown a great deal, across fifteen years, and you did it yourself. Unlearn. Relearn. Grow."

Sticker book. All nine Chapter 5 stickers blaze, crowned by the golden star; beneath, every chapter sticker since age 4 glows together, the whole journey complete.

Preview & share (privacy-first). Next: Chapter 6, College (18-22), where the kids' journey is complete and the adult one begins. And, because this whole journey is the young person's own, the share is their call: "share one thing you're proud of growing into with a grown-up you trust, or hold it for yourself, that's completely okay too."

How it ships.

- **Schema.** Capstone v1 (type "capstone"): arrival, canvasPayoff, threadsRecapped, recap[], playback[], reflect[], celebration, preview, share. Data file: **SwipeEd — Capstone c5 Ready for the World — Landing.json**.
- **Gate.** Passed score_capstone.py on all eleven checks, including the literal "no test/score language" guard, and the consistency audit (recap = all nine chapter lessons, threads B/C/D/E/F/G, playback from chapter nodes).
- **gameld. capstone-ch5** — node.game === GameDone key === registry id.
- **Gating.** "—" : never gated; reached by completing the Chapter 5 spine.
- **Reuse.** Every truth and victory lap is pulled from the chapter's existing game libraries; no new content.
- **Tracked.** build_gate.py finalize marks c5 capstone ✓ only after order, read, score, audit and artifact gates pass.
- **Reward.** Sticker economy only; no coins, streaks or leaderboards.

The capstone promise. Consolidate the chapter's truths through spaced, varied, joyful retrieval; crown it with a celebration of growth; never make a young person feel judged. With c5, the whole 4-18 journey is complete, and Chapters 1-5 are sealed; the adult layer (Chapters 6-8) lies ahead.

Research basis: spaced retrieval practice & variable-cue retrieval; growth-mindset and celebrating growth, autonomy and readiness for near-adults (15-18) over grades. Next: Chapter 6, College (the adult journey), capstone c6.
