

Capstone c7

A Life, Built

Together, or on your own terms, you built it.

The Chapter 7 graduation (Building a Life, 22 onward): a life built with a partner or on your own terms. A reflective, grown-up sticker-book landing that opens on a warm home with the door open, revisiting eight big truths across five threads, partnership and the equal home, money and consent at home, the family map, and whether, when and how you build a family, as a constellation called A Life, Built. Eight truths, eight victory laps, zero tests. Scorecard: passed.

The life-building graduation.

A Life, Built closes Chapter 7 (Building a Life, 22 onward), the chapter where the story turns from "me" to "us", without ever losing the "me". Like every capstone it consolidates and celebrates, never tests, here revisiting the eight big truths the adult grew into: choosing and building a partnership, the freedom of every path, the equal home, respect and consent at home, the family map of in-laws, fair shared money, the whether/when/how of children, and the many ways to family. The register is grown-up and reflective: "together, or on your own terms, you built a life that is truly yours."

Why it works. Revisiting the chapter after a gap is spaced retrieval, which consolidates durably; replaying each truth through a fresh mechanic adds the variable-cue boost. As an adult milestone the register stays reflective and earned, celebrating real-world capability, a fair home, clear boundaries, money handled openly, a family chosen on your own terms, over any grade. So this capstone is proud and grown-up, and honours the partnered and the solo path equally, never a test.

Eight truths, lived for real.

The heart of the capstone: eight stickers rising into an "A Life, Built" constellation over a warm home with the door open. Tapping each replays its one big truth, spaced, adult, never graded.

STAR	FROM	THREAD	THE BIG TRUTH IT REPLAYS
choosing-building	g53 Choosing & Building	D	Choose on values and how someone handles conflict, not sparks; a partnership is built daily, and consent is always central.
your-path	g54 Your Path, Your Call	D/E	Marriage and children are one path, not the measure of a life; your worth is your own and the timeline is yours.
equal-partners	g55 Equal Partners	E	An equal home shares the visible chores and the invisible mental load; owning your share beats only helping.
respect-home	g56 Respect at Home	B	Consent and respect live inside marriage too; abuse is never your fault, and reaching for help is courage.
family-map	g57 The Family Map	D	You join a family: set kind boundaries, stand as a team, honour elders while keeping your own voice, with help if it turns harmful.
money-together	g58 Money, Together	C	Fair money is open, planned and both-independent; controlling a partner's money is abuse, not a division of labour.
if-when-whether	g59 If, When & Whether	F	Whether, when and how many is yours, free of pressure; fertility facts stay calm and difficulty conceiving is no one's shame.
many-ways-family	g60 Many Ways to Family	F/D	Family is built in many ways, all real; go in informed about the barriers and live your family with pride.

★ a-life-built-star

Five reflective beats.

1. **Arrive & settle.** Lensy: "look at what you've built." A warm home with the door open blooms around the adult, two chairs and one pulled up by choice.
2. **Look back.** The eight-star constellation; tap each to revisit its truth (consolidate).
3. **Play back.** Eight light victory laps drawn from the chapter, framed as confident "you've got this" moments, no score, no buzzer.
4. **Reflect & celebrate.** Four grown-up prompts (building an "us" without losing the "me"), then the golden star, a certificate and the full sticker book.
5. **Preview & share.** A bridge into Chapter 8 (Parenthood) and a privacy-respecting, optional share.

Arrival & canvas, verbatim.

```
arrival: "Lensy: look at what you've built. ...This chapter was the turn from 'me'
        to 'us', without ever losing the 'me'. Take a breath, this is yours."
canvas:  "...a warm home with the door open: two chairs at a table and one pulled up
        by choice... eight stickers ring it like lights, a golden graduation star
        settles over the doorway as the chapter completes."
```

Eight victory laps.

Each replays a chapter truth through a different action (variable-cue retrieval), framed as a confident lap. Eight distinct mechanics, including no-fail branches, never the same twice in a row, never scored.

#	FROM	MECHANIC	THE VICTORY LAP
1	all	gallery	The eight-star constellation, tap any star to revisit its truth.
2	g53	sort	Sort a deep green flag in a partner from mere surface shine.
3	g55	strike-rewrite	Flip 'helping with chores is equal' into owning your share end-to-end.
4	g56	branch	A frightened friend at home: believe her, no blame, share help (no-fail).
5	g58	match	Match each money tool to its job; open, planned, both-independent.
6	g59	swipe	Tell a calm planning fact from a panic-driven myth.
7	g60	role-play	Affirm a friend's non-default family as every bit as real.
8	g54	reflect	Choose the truth from the chapter you most want to carry forward.

Mechanics used: **gallery, sort, strike-rewrite, branch, match, swipe, role-play, reflect**. Tests, scores or buzzers: **zero**.

A life, built on your terms.

The four reflections (non-judged, grown-up)

- "This chapter was about building a life, with someone or on your own terms. What part of building feels most like yours now?"
- "A lot of this was about staying yourself inside an 'us'. Where did that land for you?"
- "Every path is valid, partnered, solo, childfree, many ways to family. How does that freedom sit with you?"
- "You learned where the lines are, and where help lives, money, consent, safety. What feels different about knowing that?"

Every option is affirmed; the focus is capability, fairness and autonomy, building an "us" without losing the "me", not a right answer, the grown-up way to mark this milestone.

The graduation

Glyph. The golden **a-life-built-star** crowns the constellation.

Certificate. "...You have built A Life, someone making an adult life on your own terms. You choose partners on values and consent, you build us without disappearing into it, you share the whole load, you live respect and consent at home and know abuse is never your fault, you set kind boundaries and stand as a team, you keep money open, fair and both-independent, you hold whether, when and how many as your own free choice, and you know family is built in many ways, all of them real. Together or on your own terms, you are building a life that is truly yours."

Sticker book. All eight Chapter 7 stickers glow, crowned by the golden star, with every chapter sticker since age 3 shining beneath.

Preview & share (privacy-first). Next: Chapter 8, Parenthood, the final chapter, for those who take the parenting path, raising a child with the same equality, consent, warmth and confidence carried the whole way, a full circle back to the very first feelings ever named. And, because this is the adult's own, the share is their call: "tell someone you trust one thing you're proud of building this year, or keep it for yourself, that's completely okay too."

How it ships.

- **Schema.** Capstone v1 (type "capstone"): arrival, canvasPayoff, threadsRecapped, recap[], playback[], reflect[], celebration, preview, share. Data file: **SwipeEd — Capstone c7 A Life Built — Landing.json**.
- **Gate.** Passed score_capstone.py on all eleven checks, including the literal "no test/score language" guard, and the consistency audit (recap = all eight chapter lessons, threads B/C/D/E/F, playback from chapter nodes, preview names Chapter 8 Parenthood).
- **gameld. capstone-ch7** — node.game === GameDone key === registry id.
- **Gating.** "—" : never gated; reached by completing the Chapter 7 spine.
- **Reuse.** Every truth and victory lap is pulled from the chapter's existing game libraries; no new content.
- **Tracked.** build_gate.py finalize marks c7 capstone ✓ only after order, read, score, audit and artifact gates pass.
- **Reward.** Sticker economy only; no coins, streaks or leaderboards.

The capstone promise. Consolidate the chapter's truths through spaced, varied, joyful retrieval; crown it with a grown-up celebration of a life built fairly and freely; never make an adult feel judged. With c7, Chapter 7 is sealed; only Parenthood (Chapter 8), the final chapter and the close of the lifelong journey, lies ahead.

Research basis: spaced retrieval practice & variable-cue retrieval; the reflective adult-milestone register (capability and autonomy over grades). Next: Chapter 8, Parenthood, capstone c8 (the grand finale).
